July	Lancaster, Ohio	VBS Program in Senya Beraku 500 children
July	Baltimore, Ohio	Building project
July/Aug	Middleport, Ohio	Children's Ministry
October	Kansas City	Team Xtreme Ministries, Major Metro Areas
All Year	Internships	2 weeks to 3 months

African Hope has multiple ongoing projects in Ghana and in the USA. Operation BookShelf hopes to collect another 100,000 donated books. Also being collected are P III desktop and laptop computers to be shipped to Ghana and distributed throughout the country in schools, colleges, universities, ministries and orphanages. This project has been instrumental in allowing us into many Moslem communities; bringing educational materials and demonstrating the true love of our Heavenly Father. Please pray about being a collection site for Operation BookShelf.

While we are away from Ghana a Senior Secondary School (Sr. High) will be built in Gomoa Fetteh at the Village of Hope. A major donation from Naples, Florida is instrumental in this project being undertaken. There is no Senior Secondary School in this area and children will now have opportunities for education that have never been available. This area is a ministry focus and while we are gone the fresh water will continue to bless a village and the students will be enjoying books, computers, printers, chairs desk, chalk boards, school supplies and the love of Christ expressed through your gifts to African Hope that are making a difference.

We thank all of you who have prayerfully supported this ministry and the Budd family. The Budd Family has a few remaining speaking dates open in 2007 and we would enjoy sharing our testimony with your congregation. Please contact us ASAP and allow us to share in traditional African clothing, jewelry, with authentic drums and a joyous attitude of what God has done in our life!

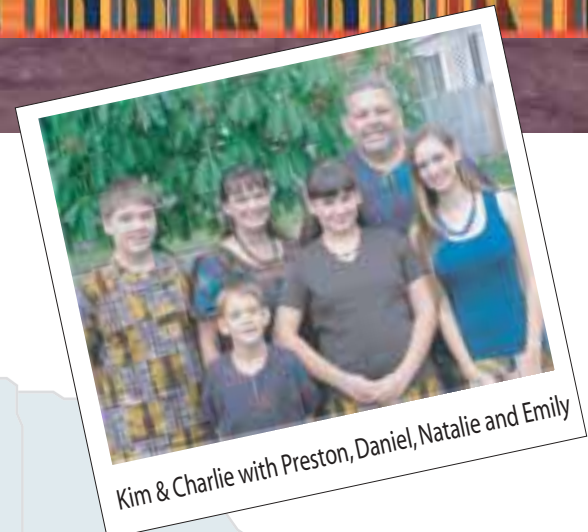

Spring 2007

News from:

# The Budds

Serving with African Hope in Ghana, West Africa

The Budd family is having an awesome experience in Ghana West Africa as we see God show Himself powerfully. We Praise God for allowing us to see the Spirit moving and to be involved with African Hope. It has been a glorious experience to witness my wife and our children grow in their spiritual walk...to grow in their faith...to see the Bible come alive in signs, wonders and miracles. We have all seen God move in all of our lives. God is the center of our family, of the ministry and our personal lives and He is moving within all of us. Even as we are preparing for our ministry time within the USA there is a desire to stay in Ghana. It is time to visit the USA after 18 months of not having medical or dental attention. We look forward to ministering throughout the USA and enjoying steady water, flowing electricity and paved roads.

Ministry Focus in Ghana is in **three Regions**

Each Region with *Mission Partners*

**Greater Accra (Accra, Pram Pram, Tema, Amrahia)**
